## 06. IL CICLORADUNO DI NUOVA GENERAZIONE

### THE EVENT

This is truly the bike event for the younger generation. It is dedicated to young adults who love biking - just two wheels, spokes, a chain, a frame, and handlebars to paint curves, with the joy of the wind in your hair and the freedom of spending time with your fellow biking friends.. There will be scheduled breaks to allow time for picture taking and to enjoy the scenery.

**YOUNG-IN-ELBA** was started to help young people become familiar with biking, a simple vehicle that helps you to discover a different and emotion-filled way to enjoy nature, cities and travel.

Lands, people, locations to see, to absorb, to touch.

If you are the type that keeps his/her bike in the cellar, then pull it out, jump on it and come with us!

We have it made: five days together, Napoleonic food and sinful evenings. This year we meet between April 25th and April 29th at San Martino di Portoferraio. Let the young people be Young-In-Elba!

### **06. IL CICLORADUNO DI NUOVA GENERAZIONE**

### **PORTOFERRAIO AND THE SAN MARTINO VALLEY**

This is a key point of any Elba Island tour. Here the Etruscans built a temple, the Romans built a fortress above Portoferraio bay; long afterwards Napoleon chose this location as his summer retreat during his exile. From his window he could spot anyone coming or going from the harbour, two and a half miles away.

Nowadays two hundred thousand people a year queue up to see this location of European history.

The place chosen for the first FIAB youth bike event (cicloraduno) is uniquely beautiful. And yet you will be on the outskirts of the most important town of the island, close to its center of activity and history. The basic camp is located exactly in the center of Elba Island. It's within easy reach of beaches, mountains, towns, mines, boats, forests, panoramas, cliffs, amusements and switchbacks.

There's nothing better than seeing San Martino, in order to appreciate it.

### **YOUTHS-IN-ELBA TO FOSTER BIKES**

We chose San Martino for a purpose. Together with the San Martino Council, the Portoferraio administrators, the Arcipelago Toscano National Park, the Mountain Community and the Hotel Association and APT (Tourist Office) we launched a number of activities with the aim of fostering mobility with bikes. The idea is to push the use of bikes to visit Portoferraio and to reach San Martino and Napoleon's Villa/museum, as well as to travel within pristine Elba forests and make it to coastline spots.

### **IN SAN MARTINO TO LEARN BIKING**

The local SAFETY BICYCLE representative and FIAB are launching a bike-centered project. A new Bike Testing Ground now under development on the verge of the Forest will feature seminars promoting better knowledge of bike mechanics and technical use of bikes and accessories.

## 06. IL CICLORADUNO DI NUOVA GENERAZIONE

### GETTING TO/FROM ELBA ISLAND

Elba Island is separated from the mainland (Tuscany, Italy) by a channel approx 8km (5.5m) wide. The service harbour on the mainland is Piombino. The service harbour on Elba Island is Portoferraio. The harbour-to-harbour ride is approx 20km (12m).

#### How to get to Piombino (Tuscany)

*By train or train+bike*

Plenty of trains go through the main Livorno-Roma train line that skirts Piombino. But Piombino is 13km (8m) off the track, so you need to get off at the smallish train station of Campiglia Marittima, then either ride the bike to Piombino on SS398 or wait for the local train service with its few runs.

Bikes can be hand-carried on local trains (bike sign on train timetables). The charge is 3.50 Euro for the whole trip (max 24hrs). Bikes can be carried on express trains only if stored in a carrybag. In that case they will be considered regular luggage and will be not be subject to charges. For train schedules please check [www.trenitalia.com](http://www.trenitalia.com) - English language selectable.

What follows is a summary of trains getting to Piombino/ Campiglia Marittima from major Italian cities. These trains will allow you to hand-carry bikes (3.50 Euro bike ticket needed).

### *By car or car+bike*

Using a car obviously eliminates the problem of train-to-train hopping. In order to select your best route, we suggest [www.viamichelin.it](http://www.viamichelin.it).

Because the car is of no use during the event, the initial suggestion was to leave it on the mainland in Piombino. However secure parking may be expensive enough to warrant taking the car to a parking spot on Elba Island. Because ferry charges vary in consideration of car size and when the ticket is purchased (same as low-cost airlines), you may have to decide for yourself what is best for you. Secure parking in December 2005 was 7,00 Euro /day).

Mainland parking is available at the following locations:

- free-parking area at Campiglia train station – must ride bike 13km (8m) to Piombino ferry
- free parking along Piombino streets – ride bike to ferry
- open-air secure parking “Autorimessa del porto” just prior to embarking, along the approach to the terminal

## 06. IL CICLORADUNO DI NUOVA GENERAZIONE

### **Ferry to Portoferraio (Isola d'Elba)**

#### *Car transportation*

The ferry company Moby Lines offers a limited number of 1,00 Euro one-way tickets. Link to [www.moby.it](http://www.moby.it) to find dates and times still available. Please remember you need a return ticket.

Because end of April is a busy period for travelling to Elba Island, taking a car to Elba may require advance booking of your ticket to avoid long queues at the loading harbour or even outright impossibility to board the particular ferry. Again, please remember your return ticket.

#### *Pedestrians*

You can buy your ticket at the ferry terminal. No round-trip reduction.

#### *Bike transportation*

Pedestrians may take along a bike which pays an additional one-way charge of 5.30 Euro with Toremar, 5.00 Euro with Moby Lines. Bikes are stowed on the car bridge.
